Includes revenue from marketplace commissions, excluding merchandise volumes. For Cnova Brazil, net sales for the quarter and full year ended December 31, 2014 and 2015, presented here are estimates subject to revision following completion of the ongoing legal and forensic accounting review of inventory management at Cnova Brazil as disclosed in Company's *Comunicado ao Mercado* dated December 18th, 2015 and in Cnova's Sales Release announced today; (4) Includes revenue from intercompany transactions. Excluding the stores closed to comply with the decision by Brazil's antitrust agency CADE, the decrease in the quarter would have been 13.9%.

Sales Performance – Consolidated

- ✓ Consolidated net sales in the quarter amounted to R\$ 19.7 billion, impacted by the deterioration in Brazil's macroeconomic scenario over the course of the year that significantly affected consumption, particularly of durable goods.
- ✓ The highlight of the quarter was the strong growth at Assaí (+27.8%), which, combined with the ongoing program to renovate stores under the Extra banner and the resilience of other Multivarejo banners, supported sales growth in the Food segment of 6.7%. Despite the economic slowdown, same-store sales in the Food category advanced on 4Q14, reflecting the higher customer traffic at all banners.
- ✓ It is important to emphasize the efforts made by the Company to adapt to consumers' needs arising from the economic context, such as adjustments to the assortment and initiatives to capture operating efficiency gains and in turn boost competitiveness. Another highlight was the launch of the movement "Vamo Junto," which for the first time launched a national action uniting initially all of the Group's brands, with the support of key suppliers, seeking to offer more attractive prices, promotions and services.
- ✓ During the quarter, 25 new stores were opened, of which 24 were in the food segment (9 Minuto Pão de Açúcar, 7 Assaí, 6 Minimercado Extra, 1 Pão de Açúcar and 1 fuel station) and 1 Casas Bahia store. The Company's expansion will continue to prioritize higher-return formats.
- ✓ In 2015, net sales amounted to R\$ 69.1 billion, driven by the inauguration of 118 new stores, with 91 in the Food segment (46 Minimercado Extra, 27 Minuto Pão de Açúcar, 11 Assaí, 5 Pão de Açúcar, 1 Extra Super and 1 fuel station) and 27 Casas Bahia stores.
- ✓ In 2016, the Company will continue to focus on price competitiveness to continue gaining market share through the capture of productivity and operating efficiency gains, besides the expansion of higher-return formats.

Food Business (Multivarejo + Assaí)

- ✓ Net sales in the quarter advanced 6.7%, with the inauguration of 91 stores in the last 12 months (46 Minimercado Extra, 27 Minuto Pão de Açúcar, 11 Assaí, 5 Pão de Açúcar, 1 Extra Super and 1 fuel station). Same-store sales in the Food Business advanced 1.9%, impacted primarily by weaker non-food sales at hypermarkets due to the current economic scenario, which led to contractions in durable good sales in the whole market.
- ✓ The performance of Food categories remained resilient, despite changes in the behavior of consumers, who are now seeking more first-price or promotional products. Despite this scenario, Multivarejo and Assaí posted same-store Christmas and Black Friday sales that outperformed growth in the whole of the fourth quarter.
- ✓ **Multivarejo:** continued market-share gains in the Pão de Açúcar banner due to the dedicated efforts to monitor and improve service quality, customer service and assortment, and also in Proximity formats (Minimercado Extra and Minuto Pão de Açúcar) due to the advances in "clusterization" and assortment adjustments at stores. At the Extra banner, the highlight was the better trend in customer traffic in relation to 2014, which was supported by the improvement in price competitiveness, store renovations and the training of specialized labor for perishables (bakers, butchers, fishmongers, confectioners, etc.)

- ✓ The plan to renovate Extra stores, which was begun this year, accounted for the modernization of 62 stores (35 hypermarkets and 27 supermarkets), which underwent reviews of their product assortments, improvements in customer service and other initiatives. The renovations already represent approximately 25% of the banner's sales. Renovated stores presented a significant difference in growth rates compared to unrenovated stores.
- ✓ **Assaí:** the strong organic growth and positioning supported a solid growth over the course of the year, demonstrating the format's effective strategy. In 4Q15, net sales advanced 27.8%, outpacing growth in the year (+25.5%), driven by above-inflation same-store sales and the inauguration of 7 stores in the quarter, 3 of which in the Northeast, a region that already has 21 stores. In the last 12 months, 11 stores were opened, which represents expansion in sales area of 18% or 56,000 square meters, ending the year with 95 stores of the banner. Furthermore, 5 more stores are under construction and expected to open in the first half of 2016.

Via Varejo

- ✓ Net sales amounted to R\$ 5.5 billion, a decline of 14.7% from 4Q14 or of 13.9% after excluding the effects from the 51 stores closed since 2Q14 to comply with Brazil's antitrust authority CADE. On a same-store basis, net sales contracted 15.2%.
- ✓ Via Varejo intensified its sales strategy by improving price competitiveness and strengthening promotions, leading it to post its best sales performance since 2Q15, despite the scenario marked by continued declines in consumer spending and confidence. Via Varejo captured a market-share gain in the quarter.
- ✓ Sale of services, such as extended warranty and insurance, increased 5.2% from 4Q14, with a higher penetration due to initiatives such as training programs for sales team, telemetry, pricing policies and sales campaigns. Also in 4Q15, Via Varejo signed a new agreement of cards with Bradesco that extends the original one and incorporates benefits that are expected to drive sales and profitability in financial products at the Casas Bahia banner.
- ✓ The Crescer Mais Project already has 121 stores with the new concept of a Furniture category, 176 store-in-store units selling mobile phones and 81 banner conversions.
- ✓ Rollout of Click & Collect operations (online sales with in-store pickup) at all stores using the inventory of Via Varejo.
- ✓ With the improvement in sales performance in 4Q15, Via Varejo ended the year with a 15.0% contraction in net sales, which represents important improvement from the last two quarters (2Q15 and 3Q15), when sales contracted 22.2%.
- ✓ For future quarters, Via Varejo will continue to focus on operational excellence, boosting productivity at stores, reducing distribution costs and strengthening its commercial strategy, which will leave it better prepared to recover sales and capture market-share gains.

As the investigation is ongoing, as of the date of this press release, Cnova has not yet determined whether it may be required to adjust its previously issued financial statements for any prior period(s) for any portion of this sales adjustment, or for any other items.
